

Our trip to Bonn

In June 2011 our bilingual course (6d-f) went to Bonn. First we chose which sights in Bonn we wanted to present. We could choose between many different themes: the Beethoven house, the Metropol cinema, the old city hall, the main station, the Rhine promenade, the University of Bonn or the church Münster. We went to all the different sights and there the groups presented their topics for three to five minutes. At the end of the presentation the groups asked some questions. Sometimes between the presentations we took a break. Some people knew their presentation by heart¹.

The weather was sunny and warm. ☺.

We learned more about Bonn in a funny and interesting way.
